Education

California Polytechnic State University, BS in Computer Science – San Luis Obispo, CA, USA Sept 2019 – June 2023

- Honors: Dean's Honors List
- Campus Experience: Tutor at Cal Poly CSSE Tutoring Center

Experience

Software Developer, Lively Impact – Science Park, NT, Hong Kong Dec 2023 – Feb 2025

- Maintained and developed multiple government projects with HKPF, FEHD, HyD, HD
- Optimized calculations on luminosity and RGB from photos to save computation time
- ***Leveraged knowledge*** in Git, Liquibase, Docker, Angular, Java, Spring Boot, MySQL, MongoDB

Software Engineer, Swire Properties – Quarry Bay, HK, Hong Kong Feb 2025 – present

- Maintained and developed multiple internal projects
- Assisted in troubleshooting and resolving technical issues, demonstrating problem-solving skills and a proactive approach to tackling challenges in a fast-paced environment
- ***Leveraged knowledge*** in Jira, Git, Azure Devops, Angular, Java, Spring Boot, MySQL, ASP.Net Core, ASP.Net Razor, Microsoft SQL Server

Projects

Data Canva – Lively Impact June 2024 – Feb 2025

Maintain, develop, and deploy a multi-purpose platform that helps users store and process data, and only requires users to have minimum sql knowledge

- Troubleshooted thread saturation problem
- ***Leveraged knowledge*** in Java, Restful, Nikto

IoT Platform – Lively Impact Feb 2024 – Feb 2025

Maintain, develop, and deploy a surveillance platform that gathers IoT device data from both http and tcp, and guarantees to send real time alarms to device operators

- Created Restful API for IoT data http transfer
- Used Modbus TCP to collect IoT data
- Created user interface with Google Maps JavaScript API
- ***Leveraged knowledge*** in Angular, Modbus, Restful, Spring Schedule, Docker

Reimbursement Web Application – Swire Properties Feb 2025 – Sept 2025

Maintain and develop Swire reimbursement web application

- Troubleshooted frontend and backend bugs
- Developed new features as required, e.g. graceful exception handling
- Resolved users' enquiries
- ***Leveraged knowledge*** in Angular, ASP.NET Core

Skills

Proficient: Angular, Java, Spring Boot, MySQL, PostgreSQL, Git, Liquibase, Docker

Familiar: ASP.NET Core, MongoDB, Microsoft SQL Server, Azure Devops

Languages: English (proficient), Cantonese (native), Mandarin (native)
